

Step by step instructions to download photos from our Flickr account.

1. Double left click on a picture that you want to download.

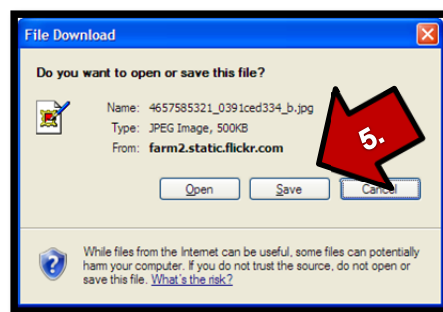

2. Click on the "Actions" drop down menu then choose to "View all sizes."

3. Choose the size you want to download to populate the “Download” field.

4. Click on “Download the _____ size of this photo.”

5. Choose “Save” from the menu and then choose where you want to store the photo on your system and what you want to name it.
