COUNCIL OF CORVETTE CLUBS INC.

***The best car insurance
in America could
be under your hood.***

The NAPA National Warranty Program.

If you use NAPA Brand parts under your hood, or anywhere else in your car, you're covered. With the NAPA National Warranty Program, you're assured that NAPA AUTO PARTS stores across America will honor the manufacturer's warranty* on any NAPA Brand part—no matter which NAPA AUTO PARTS store or service outlet you made your purchase from. Many NAPA parts are better

than your car's original factory equipment. And because NAPA is so confident of the quality of their parts, many are covered for as long as you own your car.

For total confidence on the road, use NAPA Brand parts. They're backed by the strongest national warranty program available.

MEMBER OF THE MONTH

1. Name: Marv Shreve
2. Car: 1968-427/435, Matching numbers, International blue, convertible
3. Place of Employment: Delta Steel Erectors
4. Why did you join the club: Find out about corvetting activities around the area and get to know other corvette owners
5. What club events or interests do you participate in: Concourses, shows, social and helping others do their interests.
6. Do you have any ideas for other events: Try harder to get the members interested in the clubs existing activities. Also learn what they want to do and help see to it that we try other things.
7. Would you be interested in hosting an event: It's possible that I would have something else. Linda and I have had the Mall Show party for the past two years and it's been fun. Too bad it conflicts with our Graton racing members. I don't like that.
8. Any other interests, hobbies or talents you like to share: MSU Hockey dominates as my fall, winter and spring spectator sport. I also do hunting, fishing, snowmobiling and cross country skiing. I have a cottage in the Traverse City area that gives me a good home base to do these things. I have a 24-foot boat that is used to travel the northern end of Lake Michigan and Lake Huron. I used to do lots of salmon fishing but have sort of lost interest in that. Two or three nights a week is "work on corvette Night" I enjoy doing something to it with the objective of having it someday looking the way it was when it was new. The first time you do something it's wrong, the second time it's expensive
