## From The President...

I promised no rain for the Blessing of the Vettes - - and, by gosh, we had (almost) no rain. We were blessed to be sandwiched between two not-very-nice days, so with over twenty cars registering, and Chappy feeling chipper, we got through it mostly dry. Surprisingly warm, too. Whew!

General membership meetings are held on the first Wednesday of every month at the

**Delhi Cafe**  
4625 Willoughby Road • Holt • Michigan

Business Meeting begins at 7:00 pm.  
Members and guests start to arrive as early as 5:30 for dinner and social time.

*Please join us for dinner or an event.*

We now have some generic club business cards available. They will be available at every Membership Meeting, and a few will be included in new member packets. Not everyone carries a club brochure around, and hopefully having a few cards in your purse or wallet will make it easier to give out club information to Corvette

owners who you may meet while out and about. Pick up a half dozen or so at the meeting, and replenish as needed.

Memorial weekend truly kicks off the summer. It better be summer, after a wet and cold and pretty miserable Spring. I'm looking forward to sunshine and very warm weather until at least the end of November. Mother Nature has some making up to do.

You are reading this just before or just after the annual Sparrow Hospice Benefit Car Show, held in association with the Capital Area Muscle Car Club. This is also an appreciation event held at and for our generous sponsor, Bud Kouts Chevrolet. Joining forces with the CAMCC has resulted in a larger, more interesting show that draws in a lot of the local car enthusiasts and "citizen" spectators. Better for us and Bud Kouts.

Keep an eye on our events calendar because it is full of things to do. Summer's short so get out and enjoy it. Save the wave.

## First Lady of Firsts....

In 2001, Betty Skelton (Frankman) (Erde) was the first woman to be inducted into the National Corvette Museum's Corvette Hall of Fame. She is also in nine other Hall of Fames and was known as the "First Lady of Firsts". Betty was born in Florida in 1926 and developed an early fascination for airplanes. She made her first solo flight when she was 12 and received her private pilot's license at age 16. When she was 18 she received her Commercial Pilot License and the following year she was certified as a flight instructor. In 1945, Betty Skelton began flying as a stunt pilot in airshows and went on to win the U.S. Female Aerobatic Championship in 1948, 1949 and 1950.

Betty's transition from aviation to auto racing began when she was the pilot for a chartered flight for NASCAR drivers in 1953. As a result of the friendships that started with that flight, she was invited to Daytona Beach in February 1954 for Speed Week where she drove the pace car. Then she drove a Dodge sedan at 105.88mph on the beach and set a stock car speed record for women. Betty was the first woman to receive an auto race driver's license from the Automobile Association of America and became the automotive industry's first female test driver in 1954 with the Chrysler Division. She went on to set four Feminine World Land Speed Records and set a transcontinental speed record. She was the first woman to drive a jet car over 300mph at the Bonneville Salt Flats.

Betty Skelton obviously had a flair for speed, so naturally there was a Corvette in her future. Skelton also had a long career as an advertising executive and in 1956 she began working with General Motors on their TV and print ads. She was also GM's first woman technical narrator at major auto shows and later became the official spokeswoman for Chevrolet. While working with Chevrolet she set numerous records with Corvettes and owned ten different models. Harley Earl and Bill Mitchell designed a special translucent gold Corvette for Betty. She drove it to Daytona in 1957 for Speed Week and then she paced all the NASCAR races with it that year. Skelton was also instrumental in originating the "Corvette News" magazine and served as editor for many years.

In 1959, Betty Skelton was invited by NASA to become the first woman to undergo the identical physical and psychological tests that were given to the Mercury Seven astronauts. As a result of meeting the astronauts, Betty became directly involved with arranging for America's first astronauts to also become Corvette owners.

Betty Skelton set 17 aviation and automobile records and greatly enhanced opportunities for women in racing. She is living in a retirement community in Florida and still drives a red Corvette convertible. She has had many amazing accomplishments and experiences in her life and her place in the Corvette Hall of Fame is well deserved.

## CAPITAL CITY CORVETTE CLUB

### May 4 , 2011 Membership Meeting

**Social Time & Dining** started around 5:30 P.M.

Meeting called to order at 7:01 PM Craig Iansiti.

**President – Craig Iansiti** – Craig introduced new members Dennis and Sandy Burt from Grand Ledge and they drive a 97 Silver Coupe. He also introduced visitors Mike and Linda Louis from Dimondale.

Craig then reviewed upcoming events and stated we need volunteers for the Bud Kouts Show and the Blessing of the Vettes. He also mentioned the Memorial Day Parade , the Driving School and “Meet for Breakfast”. May 15 is the Battle Creek Corvette Show at Turkeyville. He also reminded the group the GM tour was coming up next month and more info would follow.

Craig reminded members that clothing catalogs were on the front table. He also stated he would need two checks for the Capital Area Career Center scholarships.

He displayed the Turkey Award Terry received for the year and stated we will need to decide the 2011 winner by years end.

**Governor/VP - Simon Reiffer** – attended the St. Louis Governor’s meeting last week. He found out our trailer is covered by NCCC insurance at all NCCC events. Also, there are now some 16,000 NCCC members. Consideration is being given to electronic balloting for the future. NCCC is getting Sears as a sponsor – members can then get a 10% discount.

He also advised us that they are working on “Families helping Families” – a list of NCCC members in a given area willing to help other members visiting the area that need help. They are also working on a Roadside Assistance Program. Blue Bars is always looking for pictures taken at NCCC events. And this year they will raffle off a 2013 Grand Sport and tickets are still available.

Meetings will stay in St. Louis!

**Secretary (Acting) – Mike Britz** asked for corrections and comments for the April General Meeting Minutes and received none. He then requested and received approval of the April General Meeting Minutes.

**Treasurer - Mike Britz** reviewed the balance of checking and savings accounts with membership and invited questions. No questions were received!

**Quartermaster - Randy Putmon** – was not in attendance.

**Sergeant-at-Arms – Patrick Lickfeldt** - Nothing new to report.

She pointed out many events on the event page do not show up on the club calendar since only CCCC and NCCC Michigan Region events are posted on the calendar. Additional events posted on the Event Flyers page of the Web-site.

**Member Input** –It was pointed out MIS will have a Corvette show on July 16<sup>th</sup> and the cost will be \$45. The Jackson club is supporting this event and we will soon receive more information on this event. Get an up close look at these panels online [here](#), and be sure to check out some of the images and stories on your next visit!

# 50 Years of Corvettes and Astronauts

Article by: Bill Connell • [www.corvetteblog.com](http://www.corvetteblog.com)

**O**n May 5, 1961, Alan B. Shepard became the first American to travel into outer space. When he returned to terra firma, Shepard got behind the wheel of a **Corvette** – and the legends of America's favorite sports car and spacemen have been intertwined ever since. Shepard is shown at right with the 1962 model.

On May 7, 2011, approximately 30 of America's surviving astronauts are expected to gather at Cocoa Beach, Fla., where they will participate in a parade commemorating the 50th anniversary of Shepard's historic sub-orbital flight. Fittingly, they will be driven in **Corvettes**, representing all six design generations built since the famed sports car's 1953 debut.

"Each astronaut will ride in a **Corvette** from the generation current at the time of their mission," parade coordinator John T. R. Dillon III said.

Dillon, a Safety Engineer at the Kennedy Space Center, is also a Corvette owner and member of the Cape Kennedy Corvette Club, which counted four astronauts among its original membership when it was founded in 1967.

"All of the astronauts were test pilots back then; they flew performance aircraft and they moved into performance cars with a well-honed appreciation for handling, acceleration and so forth," Dillon said.

Shepard brought along his 1957 Corvette when he reported for Space Program training in April, 1959...he would own at least 10 Corvettes in his lifetime. His enthusiasm for sports cars was shared by several of the other adventurous and dedicated young men who would train with him to become America's first astronauts.

Shortly after Shepard's historic flight, then General Motors Executive Edward N. Cole presented the astronaut with a new, white, 1962 Corvette. The car had been outfitted by GM designers with a customized space-age interior. As GM did not routinely give away cars, the Corvette-astronaut connection might have become totally coincidental in the years that followed, had not Florida Chevrolet dealer Jim Rathmann stepped into the picture.

The enduring association with America's astronauts has contributed greatly to the legend of the Corvette.

"In the 1960s, astronauts were the American heroes that every child idolized and every adult respected," said Corvette historian and former Corvette Quarterly editor Jerry Burton. "That so many of them drove Corvettes really helped to establish Corvette as America's sports car."
